### EVENING.

Gospel Temperance Meeting at Bethel, 7:30.

### COCA.

Coca or Cua is the leaf of a plant which grows in the western countries of South America, and is used as a masticatory. When chewed it leaves a sense of warmth in the mouth, and has a pleasant, pungent taste. From time immemorial Coca has been highly prized and much used in South America, but of late it has attracted notice in Europe. Some English papers declare it to be invaluable as a means of assuaging thirst during great exertion in hot climates. One English physician of good reputation, after many experiments, is so satisfied of its extraordinary powers in allaying thirst, that he says: "Had our troops been provided with this leaf in Afghanistan, instead of our disaster after Maiwand, our military historians would have had to chronicle a strategic movement to the rear on Candahar. Had the Russian detachment possessed this leaf, they would have reached Khiva over the route they were sent to cross, instead of having been forced to relinquish the attempt and retire demoralized, with their ranks thinned by death in consequence of the want of water." This remarkable power to assuage thirst is not the only property possessed by Coca: it is also a powerful stimulant of the nervous system. The authority just quoted says that he has seen an infusion of Coca relieve the intense headache of nervous exhaustion, ward off the failure of nerve-power during prolonged fever, and enable patients to struggle through other exhausting diseases. If Coca is really possessed of the extraordinary qualities long ascribed to it by South Americans, and more recently by European experimenters, would it not be worth the while attempting to introduce the plant into these islands? It is a tropical growth, and would probably thrive in our soil and climate.

### THE MILIA SQUABBLE.

Some time ago it was arranged to have a match between the Government House clerks and clerks from the leading houses in town. Crews were selected and practising began. Some little differences in each of the crews took place and the crews were re-arranged, still, however, keeping to the terms of the original agreement. Everything went along peaceably, and the entries were made on Monday. Up to this time the Mercantile crew's practice time had been always a minute longer than the other's, but on Tuesday morning they managed to beat the best record of the other boat by about 30 seconds. Immediately all was confusion. The Government House crew ousted two of its members and replaced them by two others, at the same time notifying the Mercantile crew that the match was off, and that they were going to row for the money only. A protest was entered against them on the race day, and the Captain said if he was barred out he would also withdraw his other boat and so make it no race. The judges struck the race out of the programme. We make no comment.

### THE RIVAL STEAMERS.

It will be remembered that the Suez on her last trip left here 8 hours ahead of the Zealandia, and some betting was indulged in as to arrival of the vessels in San Francisco. Our Correspondent on the Zealandia writes: "We saw the Suez right ahead of us to the leeward, at daylight, Tuesday morning. Capt. Webber went off his course to overhaul her and we came up to her at 10 A.M. We passed within half-a-mile of her. The Suez signaled: 'Shall we report you in San Francisco?' We answered: 'Do you wish to send letters?' To which the Suez replied: 'No, thanks, we cannot wait any longer.' Bidding her 'Good-by' we left her out of sight before sundown. The Suez arrived on Monday at 10 A.M., 24 hours after the Zealandia."

### EMMA SQUARE CONCERT.

The Band will give a concert at Emma Square this afternoon, at 4:30 o'clock. Following is the programme:

Galo—Pomona.....Lenther  
Cavitaia—The Mountaineer....Pacini  
Selection—Romeo and Juliet....Gounod  
Waltz—The Flower Show.....Coote  
March—Ka Moi Kalakaua (new)...Berger

### CORRESPONDENCE.

Correspondence is solicited on the top of the day, or what may become so. We reserve the right to excise purely personal matter.  
We do not hold ourselves responsible for the opinions expressed by our correspondents.—Ed.

MR. EDITOR:—Can you tell me if there be any prospect of the public hearing the Band play at night?

There are many people engaged in business who cannot hear it on Saturday afternoon, and who look forward to the weekly evening concerts. If it be true that the Band did not play last Monday, owing to some petty disagreement between the Governor and the Manager of the Hotel, then I hold that His Excellency—whether in the right or wrong as regards the cause of dispute—is most certainly wrong in allowing his feelings to interfere with the pleasures, which are few, of the citizens. I am,

A LOVER OF MUSIC.

[The band will play at Emma Square on Monday nights now that it will be lighted.—Ed.]

### LOCAL AND GENERAL ITEMS.

A policeman is wanted to patrol Emma street and Emma Square.

We hear that Col. Geo. W. Macfarlane left New York on Oct. 26th by the S. S. Britannic.

At the band concert on Monday night at the square will be lighted with the new lanterns.

For what reason were the two weak oars of the Government crew replaced by two others far superior?

Amongst those arrested on Thursday for drunkenness was a native policeman.

The Band will play at Emma Square on Monday evening next, (weather permitting.)

A seizure of 29 tins of opium was made on the Suez yesterday by the vigilance of Captain Morrill.

The band played on Thursday a march composed for the occasion by Mr. Berger entitled, "Ka Moi Kalakaua."

Another gallant deed of M. Godfrey's. He went out and rescued a schooner in which two young boys were drifting out to sea.

The Suez made an exceptionally good passage up of 74 days. She brings 1,700 tons of freight. She came down in a little over 7 days.

Messrs. Godfrey and Porter, when the Pauline went ashore, swam from their own wreck and helped Mr. Wilcox to get it off the rocks.

Old residents tell us that, by comparison with previous years, the Executive Committee's arrangements for the Regatta were superb.

Why was it that the bow-oar of the Mercantile crew wore a Jockey cap of cardinal hue, when the boat's colors were entered as blue and white?

The first step towards annexation has occurred. We hear His Ex. R. M. Daggett is now the owner of one of these islands. He owns Molokini.

YESTERDAY MORNING there were 32 casual inmates of the Station-house. 25 of these were drunk, 5 were there for fighting, 1 for assault and battery and 1 for furnishing prisoners with tobacco.

SERVICES at Fort St. Church Sunday at the usual hours. In the evening, by request, Mr. Cruzan will take for his theme, "Do the dead have knowledge of what is transpiring on earth?"

Yesterday afternoon a race was rowed between a picked crew from the Alaska, in the Kapiolani, and a picked crew of Hawaiians, in the Milia. In turning the bell buoy the Milia's rudder was knocked off by the Kapiolani. The race will be run to-day.

The King's barge was sent out to render assistance to Messrs. Godfrey and Wilcox on Thursday. When it arrived at the scene of the disaster, though asked by both, its crew refused to render any assistance. Such inhumane conduct deserves to be strongly reprobated.

THE Y.M.C.A. held their usual monthly meeting in the Bethel on Thursday night. The report of the Temperance Committee was brought up and an interesting discussion followed. It was resolved to petition His Majesty in Privy Council not to allow any more licenses to be issued here or anywhere in the islands.

MISS S. E. PIERCE, M.D., is now notifying in our columns, that she has commenced practice as a ladies' and children's physician. Mrs. Pierce graduated in '77 so she has over 8 years experience of which 3 1/2 years were spent in Europe at the best hospitals in London, Paris and Switzerland. We are sure Honolulu ladies will be quite glad that they can be ministered to by one of their own sex.

### LATEST NEWS.

Abbey's Park Theatre burned down in New York, Oct. 30th.—Impending troubles in France. A league for nihilistic objects has been discovered. The Government is thought to be weak. Fifty out of 380 have been convicted.

### ELECTIONS IN THE UNITED STATES.

The Call's list for the new Congress gives 486 Democrats, 129 Republicans, 9 Independents, 2 Green-backers and 1 doubtful. Everywhere the Democrats are gaining the victory. Cleveland's majority in New York is 175,000. Massachusetts elects Ben Butler. Michigan and Kansas also elect Democratic governors. Stoneman's majority in California, 10,000; Indiana, Connecticut, Colorado, New York and Pennsylvania lost to the Republicans. Neumann badly defeated in California.

Washington, November 6th.—Dispatches received by the Acting Secretary of the Navy this morning from the Commander of the United States ship Alaska report a serious state of affairs there, growing out of dissatisfaction among the sugar planters. The planters have formed a protective union, and made a protest to the King against the selection of his Cabinet. They urge a more liberal and progressive policy than indicated by the King's movement. The King, in replying, recognized the right of all to make suggestions, if they entertained any grievance, and assured the members of the union that their appeal would be considered. Meantime there has been no change in the situation, and the King has issued a proclamation that he would be crowned February 12th. The report further says the matter probably will drift along until the coronation day, when indications point to a disturbance if the alleged evil is not remedied. Complaints of members of the union appear to be general. The policy of the Government is not sufficiently liberal, and they urge a better opportunity for bringing in labor and the adoption of a course to insure the continuance of the Reciprocity Treaty with the United States, which, it is acknowledged, has added so largely to the wealth of the planters.—Weekly Bulletin, Nov 8th.

### THE EVILS OF PAINTING And their Remedy.

"It has been said with much truth, too, that house painting might, with study and acquirement of taste, resume its rank as a liberal art."—Painters' Manual.

Believing the above to be true, A. B. KERIT has now re-organized his system of working the business in Honolulu. In the first place he has secured the services of that celebrated artist, Mr. Max Kouts, formerly of San Francisco, whose work in the line of plain and decorative paper-hanging, frescoing, &c., is up to the present time unsurpassed, and on these islands has never been equalled. For house painting jobs first-class mechanics only will be employed. In future patrons can depend upon my filling every order on the most scientific basis known to the trade.

The Sign Painting and Lettering department will be permanently presided over by Mr. GEO. STRATMEYER, (further comment unnecessary.)
